

Luca's Image Adjust

Whether you have footage looking dull, underexposed, overexposed, showing undesired saturation / desaturation levels or if you simply need to retouch the overall look of your images using just FCP then Luca's Image Adjust may well be of assistance. Furthermore, this plug-in renders very quickly, the filter can generously brighten up or saturate images keeping video noise very low or even absolutely unaltered.

Take a look at the video demo then download it and try it out.
