# Luca's Frame Overlay Generator

Luca's Frame Overlay allows the user to place a frame over a given clipclips or sequence. The width, height, position and color can then be modified or an image or clip may be applied to the frame.

To install the plug-in:

After downloading the plug-in drag it to Macintosh HD / Library / Application Support / Final Cut Pro System Support / Plugins folder. Finally restart Final Cut Pro and the generator should show up in the Generator's menu (Luca's Generators).
