

Luca's Flicker Wipe Transition

This plugin provides a flickering wipe transition in between clips. Gradient angle (Vertical, Horizontal, Diagonal), edge softness, flicker duration can be modified. In addition, a clip to stylise the transition may be added. Please take a look at the sample video to see how it can be used and play around with the various parameters to customize the transition according to your needs.

To install the plug-in:

After downloading the plug-in drag it to Macintosh HD / Library / Application Support / Final Cut Pro System Support / Plugins folder. Finally restart Final Cut Pro and the transition should show up in the transitions menu.
