# Luca's Image Overlay Generator

Luca's Image Overlay allows the user to place an overimposed image or clip in your sequence. The width, height, position and colour can all be modified.

To install the plug-in:

After downloading the plug-in drag it to Macintosh HD / Library / Application Support / Final Cut Pro System Support / Plugins folder. Finally restart Final Cut Pro and the generator should show up in the Generator's menu (Luca's Generators).
